eCommerce Prep Checklist

Website Setup

- 1. Contact your eCommerce website provider to verify your website is correctly configured for use with Ascend's eCommerce features.

Ascend Setup

- 1. Verify that all store workstations are running Ascend Version 2.2 or later. For assistance upgrading, contact the Ascend Support team at 01908 360150.
- 2. Verify the current accuracy of your Ascend stock quantities. If you are not confident in your Ascend stock quantities, consider performing a full physical stock count or cycle counting products with a high sell through. Obtain a copy of our "Stock Counts: The Complete Guide" booklet for reference:
 1. Login to www.ascendrms.com.
 2. Click the Downloads link.
 3. In the Download Type column, locate Stock.
- 3. Configure Ascend for eCommerce integration; for details, obtain a copy of our "eCommerce Integration: The Complete Guide" booklet:
 1. Login to www.ascendrms.com.
 2. Click the Downloads link.
 3. In the Download Type column, locate Ecommerce.
